C:\Users\HP>mongo
MongoDB shell version v5.0.2
connecting to: mongodb://127.0.0.1:27017/?compressors=disabled&gssapiServiceName=mongodb
Implicit session: session { "id" : UUID("b743d330-e5d0-45ca-ad0e-4b376cbff230") }
MongoDB server version: 5.0.2
Warning: the "mongo" shell has been superseded by "mongosh",
which delivers improved usability and compatibility.The "mongo" shell has been deprecated and will be removed in
an upcoming release.
We recommend you begin using "mongosh".
For installation instructions, see
https://docs.mongodb.com/mongodb-shell/install/
______
The server generated these startup warnings when booting:
       2021-08-27T20:52:31.105+05:30: Access control is not enabled for the database. Read and write access to data and configuration is unrestricted
       Enable MongoDB's free cloud-based monitoring service, which will then receive and display
       metrics about your deployment (disk utilization, CPU, operation statistics, etc).
       The monitoring data will be available on a MongoDB website with a unique URL accessible to you
       and anyone you share the URL with. MongoDB may use this information to make product
       improvements and to suggest MongoDB products and deployment options to you.
       To enable free monitoring, run the following command: db.enableFreeMonitoring()
       To permanently disable this reminder, run the following command: db.disableFreeMonitoring()
```
